Question: How are administrators going to verify a Saturday morning weigh-in at their school, if they are not present.

Administrators may be sent the completed weigh-in form electronically for review. (i.e.- text picture or email)

The administrators will then text the picture or email the form to the tournament's director.

The administrator should identify themselves when they send the form.

The administration sending the form will serve as a signature when an actual written signature is not feasible.

It is the coach's responsibility to provide their administrator the name of the person that the form needs to be sent to and that person's email and or cell number.
